

The screenshot shows a GitHub pull request page for a repository named 'SDEV-143-Knowledge-Base'. The pull request has been updated, and the status bar indicates '1 Open' merge requests. The main content area displays the commit message 'Add test.md file' and a green checkmark indicating 'No conflicts with base branch'. Below this, there are sections for 'Reviewers' (none), 'Assignees' (none), and 'Labels' (none yet). At the bottom, there are buttons for 'Merge pull request' and 'View command line instructions'. To the right of the main content, a terminal window shows the command-line steps taken to update the file, including cloning the repository, creating a new branch, committing changes, and pushing them. The terminal also shows the creation of a pull request and its status as 'Still in progress'.

The screenshot shows a GitHub pull request page for a repository named "SDEV-143-Knowledge-Base". The pull request has 2 changes and is ready to merge. A comment from user "JWalker423" is visible, suggesting to "Add test.md file". The terminal window on the right shows the command "git commit -m \"Edit test file\" add-new-name 1bf7dfdf" was run, followed by "git push origin add-new-name". The commit message "Edit test file" is also shown in the terminal.

```
On branch add-new-name
Changes to be committed:
  (use "git restore --staged <file>" to unstage)
    new file: test.md

jwalker@Mac Knowledge Base % git commit -m "Edit test file"
[add-new-name 1bf7dfdf] Edit test file
  1 file changed, 2 insertions(+)
   create mode 100644 test.md
jwalker@Mac Knowledge Base % git push origin add-new-name
